**FISH WITH CONFIDENCE**

2009

## ROD BLANK CATALOG

### WHAT'S NEW FOR 2009

#### **Super Surf Graphite Surf Blanks**

\* Six new Super Surf rod blanks with detachable handle sections in lengths of 10', 10'5", 10'8", 11', 11'5" and 11'8". Extra handle sections are available and are interchangeable to the extent that the handle sections for the 10', 10'5" and 10'8" are interchangeable as are the 11', 11'5" and 11'8". These new Super Surf blanks offer one piece action and feel with two piece portability.

#### **G1000 Surf/Bar**

\* Two new 15' graphite G1000 Surf/Bar surf blanks in medium and medium heavy.

#### **Indian River**

\* Five new "Indian River" blanks, three in 7' and two in 7'6". These blanks are finished in a beautiful bronze color and feature texalium reinforced butts.

#### **Composite Crankbait**

\* Two new additions to the Composite Crankbait blanks. Both are 7'2" in moderate action: rated for 12-25lb test line and 15-30lb test line.

#### **XMG 50 Graphite Salmon & Steelhead**

\* One new 9'2" medium action XMG steelhead blank; rated for 8-15lb test line and 1/4-5/8 lures.

# FEATURES

## XMG GRAPHITE

*Lamiglas' newest high modulus, high tensile strength graphite*

This high modulus, high tensile strength graphite allows us to make smaller diameter blanks with faster action. XMG50 utilizes a blend of high modulus carbon fibers to create a perfectly balanced, lightweight blank that is more sensitive than anything on the market today. We use this new material in our XMG50 Fly rods and Salmon / Steelhead series. Also XMG Magnum Action Spin/Cast, Spin & Jig and Popping rod blanks.

## IM700 GRAPHITE

*Remarkably Lighter and Stronger*

Our broadest selection of rod blanks. They employ an all-new smaller diameter blank design with an improved resin system to produce a 15 percent lighter weight rod blanks than comparable graphites on the market. These rod blanks exhibit properties found only in second and third generation graphites. Superior performance at a great price.

## G1000 GRAPHITE

*Traditional, Classic-Style Action*

This is our most distinguished series of rod blanks. We use first generation graphite coupled with an improved resin formula to reduce overall rod blank weight while main-

taining classic moderately fast actions. This series spans a broad range of actions, line ratings and specialty models to cover most fishing applications.

## FIBERGLASS

*E-Glass Earned Its Place in History*

This material is structurally the most durable of the fiberglass family. The glass properties are expressly matched to each unique application such as cranking rod blanks for bass; mooching and downrigger rod blanks for salmon, shark, tuna, stripers and king mackerel. We use the same epoxy resins and composites material technology in these rod blanks as we do in our graphite models to offer you lighter weight and improved sensitivity over other manufacturers fiberglass rod blanks.

## TRI-FLEX

*Exclusive Graphite / Fiberglass Construction*

Features our proprietary Tri-Wall construction. Unequaled high quality E-Glass rod blanks are externally and internally reinforced with graphite through the butt and mid portion of the blank to reduce overall weight by 30-50% depending on the model. The tips are lightning fast and softer so they cast live bait as well as throw heavy iron, while the graphite reinforced portion of the rod blank gives tremendous fish fighting control and lifting power.

## Explanation of Graphite Model Numbers

GSH 102 2M

Blank Construction  
↓  
Classification  
Steelhead in this case

Length in Inches  
↓

Action Within its Classification  
↓  
# of Sections or Fly Line Rating

**F** - Fly  
**FW** - Freshwater Spin  
**SH** - Steelhead & Salmon  
**LB** - Live Bait  
**SB** - Surf  
**P** - Popping  
**UL** - Ultra Light  
**L** - Light  
**ML** - Medium Light  
**MH** - Medium Heavy  
**H** - Heavy  
**X** - Extra Heavy  
**C** - Casting  
**S** - Spinning  
**MT** - Mag Taper

The first two letters starting our numbering system classify the series of the blank. *Example: GFW 84 1M.* The GFW indicated the blank is a Graphite Freshwater Spinning blank.  
 The next two numbers indicate the length of the blank in inches. If a blank is over 99 inches long, three number will be used. *Example: GFW 84 1M.* This blank is 84 inches long.  
 The last number indicated the number of sections in the blank. *Example: GFW 84 1M.* The 1 indicates that it is a 1-piece blank. There is an exception in the Fly Rod Blank series, in which case this number indicates the fly line weight which best balances the rod.  
 The last letter of the blank number indicates the power rating of the blank.  
*Example: GFW 84 1M-medium.*

### COMPETITOR SERIES SPIN & CAST

You're always competing against something. It might be 100 other tournament pros all battling for first place, or your son or daughter for the day's bragging rights. Either way, you'll have a measurable edge with a Lamiglas Competitor blank. These are all fast-action blanks with well-balanced light tips and a full range of power, line and lure ratings. CC blanks are casting models. CS are spin models. All are made with ultra-sensitive graphite with one exception. Model CFC 80 MH is made of forging E-Glass material.

## IM 6 Competitor Spin/Cast

### POWER. HOW MUCH DO YOU NEED?

Applicable to our salmon, steelhead and bass rods, "power" is defined by the amount of pressure required to flex the blank. These blanks are designed to optimally manage a specific range of lure and line weights. The heavier the line and lure, the more power you'll need to cast, fight and pull effectively. The lighter the line and lure, the less power you'll need.

LFGPP 21-3-AP	21' 3 piece Fiberglass with All Purpose Point Push Pole	\$340.00

## Lamiglas Limited Lifetime Warranty

Lamiglas blanks are warranted against defects in material and workmanship for the lifetime\* of the original purchaser. If your blank fails, send it in a disposable container, prepaid and insured, with dated proof of purchase to:

Lamiglas Warranty Service  
1400 Atlantic Avenue  
Woodland, WA 98674

Please include a brief message explaining the problem with the blank, your return address, daytime phone number, and a check or money order in the amount of \$20.00 in U.S. funds for return shipping and handling.

If the return shipping length is over 9' and/or if the destination is other than the United States or Canada, actual return shipping costs will be assessed. If the problem is due to a defect in material or workmanship, the blank will be repaired or replaced to you as quickly as possible. If the problem is due to an unfortunate accident, misuse, alteration or normal wear and tear, we will advise you of the cost of repair or replacement and await your approval prior to proceeding.

This warranty is limited to the repair or replacement of the blank and does not cover consequential damages due to the failure of the blank unless they are specifically included under various state laws.

Lamiglas dealers and distributors are not authorized to make warranty decisions. In order for your rod or blank to obtain the proper warranty inspection and determination, the damaged rod or blank must be sent to Lamiglas Warranty Service.

\*All International blanks feature a one year limited warranty.
