FEATURES

XMG GRAPHITE

Lamiglas' Newest High Modulus, High Tensile Strength Graphite

This high modulus, high tensile strength graphite allows us to make smaller diameter blanks with faster action. XMG50 utilizes a blend of high modulus carbon fibers to create a perfectly balanced, lightweight blank that is more sensitive than anything on the market today. We use this new material in our XMG50 Fly rods and Salmon / Steelhead series. Also XMG Magnum Action Spin/Cast, Spin & Jig and Popping rod blanks.

IM700 PRO GRAPHITE

Remarkably Lighter and Stronger

Our broadest selection of rod blanks. They employ an all-new smaller diameter blank design with an improved resin system to produce a 15 percent lighter weight rod blanks than comparable graphites on the market. These rod blanks exhibit properties found only in second and third generation graphites. Superior performance at a great price.

G1000 GRAPHITE

Traditional, Classic-Style Action

This is our most distinguished series of rod blanks. We use first generation graphite coupled with an improved resin formula to reduce overall rod blank weight while maintaining classic moderately fast actions. This series spans a broad range of actions, line ratings and specialty models to cover most fishing applications.

FIBERGLASS

E-Glass Earned Its Place in History

This material is structurally the most durable of the fiberglass family. The glass properties are expressly matched to each unique application such as cranking rod blanks for bass; mooching and downrigger rod blanks for salmon, shark, tuna, stripers and king mackerel. We use the same epoxy resins and composites material technology in these rod blanks as we do in our graphite models to offer you lighter weight and improved sensitivity over other manufacturers fiberglass rod blanks.

TRI-FLEX

Exclusive Graphite / Fiberglass Construction

Features our proprietary Tri-Wall construction. Unequaled high quality E-Glass rod blanks are externally and internally reinforced with graphite through the butt and mid portion of the blank to reduce overall weight by 30-50% depending on the model. The tips are lightning fast and softer so they cast live bait as well as throw heavy iron, while the graphite reinforced portion of the rod blank gives tremendous fish fighting control and lifting power.

WHAT'S NEW FOR 2010

Super Surf Graphite Surf

- One new 12', 2 piece blank for 20-50lb test line and 6-16oz lure weight.

G1000 Surf/Bar

- One new 13', 2 piece blank for 25lb test line and 2-5oz lure weight.

Tri Flex Boat & Trolling

- One new 9'6", 1 piece blank for 30-50lb test line and 6-16oz lure weight.

Heavy Jigging & Saltwater-Composite

- One new 8'6", 2 piece blank for 60-100lb test line and 2-10oz lure weight.

Composite Crankbait

- One new 7', 1 piece blank for 15-40lb test line and 2-4oz lure weight.

Excel Bass

- Introduced this year is the Excel Bass blanks. This series features 10 blanks in a deep metallic copper finish, seven in 7', two in 7'3" and one in 7'11".

Tube Handles (Accessories)

- Six new lengths are added to the Graphite Tennessee Handle tubes. Three lengths in the .874 diameter tubes, 10", 12" and 16". Three lengths in the .980 diameter tubes, 10", 12" and 16".
- Eight Kevlar/Graphite Handle tubes are introduced this year in both the .874 and .980 diameter in lengths of 10", 12", 16" and 60".

Lamiglas Limited Lifetime Warranty

Lamiglas blanks are warranted against defects in material and workmanship for the lifetime* of the original purchaser. If your blank fails, send it in a disposable container, prepaid and insured, with dated proof of purchase to:

Lamiglas Warranty Service
1400 Atlantic Avenue
Woodland, WA 98674

Please include a brief message explaining the problem with the blank, your return address, daytime phone number, and a check or money order in the amount of \$20.00 in U.S. funds for return shipping and handling. If the return shipping length is over 9' and/or if the destination is other than the United States or Canada, actual return shipping costs will be assessed. If the problem is due to a defect in material or workmanship, the blank will be repaired or replaced to you as quickly as possible. If the problem is due to an unfortunate accident, misuse, alteration or normal wear and tear, we will advise you of the cost of repair or replacement and await your approval prior to proceeding. This warranty is limited to the repair or replacement of the blank and does not cover consequential damages due to the failure of the blank unless they are specifically included under various state laws.

Lamiglas dealers and distributors are not authorized to make warranty decisions. In order for your rod or blank to obtain the proper warranty inspection and determination, the damaged rod or blank must be sent to Lamiglas Warranty Service.

*All International blanks feature a one year limited warranty.

COMPETITOR SERIES SPIN & CAST

You're always competing against something. It might be 100 other tournament pros all battling for first place, or your son or daughter for the day's bragging rights. Either way, you'll have a measurable edge with a Lamiglas Competitor blank. These are all fast-action blanks with well-balanced light tips and a full range of power, line and lure ratings. CC blanks are casting models. CS are spin models. All are made with ultra-sensitive graphite with one exception. Model CFC 80 MH is made of forgiving E-Glass material.

POWER. HOW MUCH DO YOU NEED?

Applicable to our salmon, steelhead and bass rods, "power" is defined by the amount of pressure required to flex the blank. These blanks are designed to optimally manage a specific range of lure and line weights. The heavier the line and lure, the more power you'll need to cast, fight and pull effectively. The lighter the line and lure, the less power you'll need.

Explanation of Graphite Model Numbers

Blank Construction → Length in Inches → Action Within its Classification

GSH 102 2M

Classification Steelhead in this case ← # of Sections or Fly Line Rating

F - Fly
 FW - Freshwater Spin
 SH - Steelhead & Salmon
 LB - Live Bait
 SB - Surf
 P - Popping
 UL - Ultra Light
 L - Light
 ML - Medium Light
 MH - Medium Heavy
 H - Heavy
 X - Extra Heavy
 C - Casting
 S - Spinning
 MT - Mag Taper

The first two letters starting our numbering system classify the series of the blank. Example: GFW 84 1M. The GFW indicated the blank is a Graphite Freshwater Spinning blank.

The next two numbers indicate the length of the blank in inches. If a blank is over 99 inches long, three number will be used. Example: GFW 84 1M. This blank is 84 inches long.

The last number indicated the number of sections in the blank. Example: GFW 84 1M. The 1 indicates that it is a 1-piece blank. There is an exception in the Fly Rod Blank series, in which case this number indicates the fly line weight which best balances the rod.

The last letter of the blank number indicates the power rating of the blank.
 Example: GFW 84 1M-medium.
